GUIDELINES

TO: New Source Review Sections

FROM: Reginald Olsen, Permitting Branch Manager *RO*

DATE: July 16, 2014

SUBJECT: Source Type Determination Flow Chart

This Guideline is intended to aid new source review engineers, sources, and the public for determining if a source is considered a major source, minor source, or small source.

This guideline shall be audited every three years by the minor NSR section manager to determine the current status and relevance of the information.

Source Type Determination
